

GO CRAZY IN YOUR CLASSROOM

Crazy about Cotton

(Grades 3-7)

is an activity book and a video package that provide an opportunity for the students to take a close look at cotton from seed to distribution.

In the activities and investigations in the book, they will investigate how cotton is planted, irrigated, and how it grows. Students will also learn how cotton is harvested, ginned and used in our lives. The *Crazy about Cotton* video is a companion to the book. Each of the nine film segments ends with an investigative question that leads to the hands-on activities in the book.

Activity Book and Video 4085 \$38.95

Additional copies of the activity book and video may be purchased separately.
