

WESTERN AGRICULTURAL PROCESSORS
ASSOCIATION

2015 Hazard Communication & GHS Workshops

Presented by the following:

The risks of chemical exposure are real and often a component of every workday. The Hazard Communication Standard is OSHA's #2 most frequently cited standard. Any employer whose employees handle, or are exposed to hazardous chemicals, must have a written hazard communication (HazCom) plan and provide training.

The Western Agricultural Processors Association is pleased to announce the **HazCom & GHS** workshops! The workshop will cover what you need to know and how to comply with the requirement as an 'End User' of handling chemicals in the workplace (i.e. in house labeling requirements, proper secondary containers, and safety data sheets, etc.)

Session Topics:

- Required elements of a HazCom plan
- Responsibilities of employers and workers
- Safety Data Sheets (SDSs)
- Workplace labeling – *What are the options?*
- Training requirements

Who Should Attend

Owners and Managers
HR and Safety Personnel
Superintendents and Supervisors
Maintenance/Shop Personnel
Employees handling chemicals
